Winnipeg, April 3, '99.
Richard Chamberlain, head of the Chamberlain interests in Birmingham, and brother of Hon. Joseph, is dead.

In the supreme court at Chicago on Saturday, Frank Webster, charged with cattle stealing at Woodland, Ariz., was convicted and sentenced to five years in the penitentiary at Stony Mountain on two charges. Sentences to run consecutively.

The steamer Tartar arrived at Victoria from the Orient to-day after a rough passage. She has news from the Japanese papers which charge Germany with designs on Fukuoka. The natives papers say all Chinese provinces are ordered to make preparations for war with Italy.

The large sea going tug, Argus, collided with the Brooklyn ferry boat at Pierre point last night throwing 700 passengers in a panic so that men even wrenched life preservers from women. Ten persons were injured and two women were knocked overboard. All, however, were saved and the boat made the pier.

A bad fire occurred at Montreal on Sunday afternoon. The fall of a roof caused serious injuries to several members of the city fire brigade. The principal sufferers from the blaze are: Paquette Bros., Bowin & Bessomette, Rogers Bros., and the Novelty Cord Works. The first named firm lost \$25,000, partly covered by insurance.

San Francisco, April 2.—A special from Juneau, Alaska, to the Call contains the report of the murder of sixteen prospectors from Kentucky. No details at hand, but the story is that gold seekers were killed while asleep by Indians who wanted their kins and supplies. The crime was said to have been committed months ago.

There was one decidedly unpleasant incident in connection with the Queen's visit to the Riviera. A boat from the royal yacht, Osborne, was wrecked at Ville Franche and three of her crew entered a cafe full of Frenchmen, who set upon them. The sailors retreated to the quay amid volleys of stones and were obliged to swim to their boats. Several boat crews were injured and the captain of the Queen's guardship complained to the commander of the French squadron who apologized, but the affair has left bad blood between the sailors of the two squadrons, which has extremely annoyed the Queen.

Vienna, April 2.—A serious collision took place between Bulgarian and Turkish frontier guards at Korylab, between Jambelli in eastern Roumania and Adrianople in Bulgaria on the of the River Tounja, fifty-two miles south of Kamdoli. The Turks attacked a weak Bulgarian outpost, but Bulgarians, aided by armed inhabitants, repulsed their assailants after an hour's fighting. Both sides suffered heavy losses in killed and wounded. The Turks are seeking to obtain the positions hitherto held by Bulgarians at Korylab and Kizil. Agha is a railway station nearest the Turkish frontier in Bulgarian territory and would be an important strategic point for Turkey if she decides to send troops into Bulgaria.

LOCAL.

An eastern despatch says that Premier Balfour, of the Northwest Territories, is in Winnipeg arranging for educational facilities for the Donkubators and Callicians.

The latest report of the Wawanesa Mutual Insurance Company shows an increase in business of \$400,000 since January. The company have lately opened an office in Edmonton.

The Revelstoke Herald mentions that there are reports raging around Golden, B. C., of a stampede from Edmonton to the new town of the new town of Tule Jaune Cache. The Herald then goes on to state that the idea of large pack trains leaving Edmonton now for the Cache as stated in the Free Press is absurd. "As the middle of April is the earliest that pack trains ever start from Edmonton for the west, as there is no feed till then." The Herald is slightly in error. It is a remarkable fact that pack trains follow the Jasper trail all through the winter and the snow is seldom so deep that pack animals are unable to paw their living. The Jackson-McLaughlin party left Edmonton in November. Howard Roeling's train of fifty horses left the first week in March and three pack trains left the week following with eighteen horses. Others will follow as soon as they can outfit, and some of them anticipate difficulty on account of their early start, in fact their aim is to get through before the snow goes and the ice leaves the river.

EDMONTON BULLETIN, APRIL 3rd, 1899.

An editorial in a recent issue of the Free Press assumes to quote certain passages from Mr. Oliver's recent speeches in contradiction of the position taken by certain Winnipeg liberals on the tariff. It quotes Mr. Oliver as saying at Regina: "The tariff changes are genuinely beneficial and form a good and sufficient reason to supporters of the government to continue their support." Of his speech at Calgary it says: "He declared himself proud to be a supporter of the government which in their tariff policy and in their land policy deserved the greatest commendation." In none of the published reports of Mr. Oliver's remarks (not including those of the Free Press) do the quotations which that paper assumes to have made appear.

THE PLEBISCITE

OTTAWA, March 23, 99.

A delegation of the Dominion Temperance Alliance met with the temperance members of parliament yesterday morning to discuss parliamentary action consequent on the plebiscite. Although the alliance had elsewhere demanded prohibitory legislation at once they did not repeat the demand; but rather intimated that the situation was difficult and that they were prepared to accept any reasonable solution. F. S. Spence, secretary, said that prohibition was unquestionably carried in all the provinces except Quebec. If the majority of the other provinces had not the right to force prohibition upon Quebec, Quebec certainly had not the right to prevent those other provinces from having prohibition. There was a good deal of crossfiring amongst members, desirous of protecting party interests, and between members and the alliance. The alliance was specifically accused of having supported intemperate men who were willing to sign a pledge of support against known temperance men who would not sign such a pledge. In response to a demand for a definite proposition, Mr. Spence submitted the following resolution: "That in the opinion of this meeting the results of the recent plebiscite are such as call for the enactment of prohibitory legislation." McClure, M. P., moved in amendment, that the demand for prohibition expressed in the vote should not be ignored by parliament; and that as the government had declined to introduce prohibitory legislation, "a committee of seven be appointed to decide upon a plan of action whereby the views of those in favor of prohibition may be brought before parliament." The amendment was carried, and Senator Vidal and Messrs. Flint, McClure, Gannan, Christie, McKinnon and Moore were appointed the committee to report as soon as possible.

SESSION NOTES

OTTAWA, March 25, '99.

Ten days since parliament assembled for the despatch of business, and five days have been ostensibly spent in the despatch of that business, but as yet no business has been despatched nor, as far as the ordinary observer can see, has any progress been made towards its despatch. True a certain number of members have talked. Had they said anything which they could be compelled to stick to, or if the fact of their talking once would prevent them from talking again, it might be held that some progress had been made. But not even this small measure of progress can be claimed. The talk on both sides has been chiefly lazy, generalities or creditable personalities, and the man who has talked once on the motion may talk again on an amendment. This is in fact the time honored debate on the address, in which both parties are sparring for wind, so to speak, although they already seem to have wind to spare. If there is any reason for what seems in the last degree unreasonable (that is the waste of the time of the representatives of the country; who may be supposed to have been called together to do something) it is that each party is trying to draw from the other an indication of its principal points of policy for the session, while concealing its own. This being the object great latitude is allowed the speakers; a liberty which sometimes degenerates into license; in which reliance is placed on buffoonery or vituperation to arouse otherwise flagging interest. Once the leaders on each side had spoken, active interest in the debate ceased. The ordinary member can get relief from the wearying and ceaseless flow of words by going out; but Mr. Speaker (so-called because he only listens) has to suffer night and day and after day. The result to him almost amounts to manslaughter. And the end is not yet. It is now expected

that this alleged debate will be kept up until the house adjourns for Easter on Wednesday or Thursday next. Parliamentary government in Canada might still be improved; and to cut short the never useful and frequently absurd debate on the address would be a valuable improvement. Besides the two leaders, and the movers, Messrs. Foster, Bergeron, Craig, Broder, Davin, and Pope, of the opposition, and Sir Richard Cartwright, and Messrs. Britton, Casey, and Talbot, of the government side have spoken. Davis, of Saskatchewan, will open the debate on Monday. So far as can be gathered the intention of the government is to push the redistribution bill; let the idea of reciprocity with the United States die a natural death; pass resolutions to be forwarded to the British parliament recommending reform of the senate; and take no action regarding temperance legislation. The opposition will fight redistribution—which they call gerrymander—oppose reform of the senate; and while abusing the government, stand with it on the tariff; on temperance; on reciprocity; and on the fast Atlantic line.

Notices have been accumulating on the order paper, as none are disposed of while the debate on the address is in progress. Douglas has a bill to regulate the grain trade, which allows shipment of grain without restriction. Also to relieve joint securities for seed grain advances. Also respecting abandoned lands controlled by colonization companies. Richardson is introducing his bill to permit the attachment of the salaries of public employees, for debt. Morrison and Donville ask a number of questions regarding matters in the Yukon. The questions have particular interest as both members have been there.

At a meeting of western members held at the call of the minister of inland revenue, the minister decided to call a meeting of the western grain standard boards to consider the question of permanent (instead of the present temporary) wheat grades for No. 1 hard and No. 1 northern; and of mixing wheat in elevators. The opinion seemed to prevail that if the higher wheat standards were permanently settled, the difficulties arising from the mixing of grain in elevators would be diminished to a great degree. It is thought that the lower standards might be rearranged each year to meet the circumstances—as all are at present. No legislative action will be taken until the grain standards board reports.

SETTLER'S TIMBER.

An order has been issued recently by the commissioner at Ottawa to increase the amount of saw timber allowed a settler in place of the 3,000 lineal feet of logs, from 6,750 feet board measure to 9,250 feet board measure, an increase of 2,500 feet. This is in the case of green logs, which must not be more than 13 inches in diameter at the butt. In case of dry timber there is no restriction as to size of log allowed free and the settler is allowed all the lumber 3,000 lineal feet will make.

IMMIGRATION.

Free Press: Mr. Benjamin Davies, Canadian emigration agent at St. Paul, arrived in the city by the Great Northern yesterday, with a party of 25 people from Minnesota, who have come to this country to settle. The party will divide and go to three settlements, at Portage la Prairie, Lake Dauphin and Alberta. Mr. Ed. T. Holmes, who is associated with Mr. Davies in immigration work, left St. Paul for Alberta yesterday by the "Sea" line, with a party of 45 settlers. They were made up of people chiefly from Minnesota, some from Michigan and two from Wisconsin.

Mr. Davies could have brought more with him, but he advised them to wait until the expiration of March 25th and April 5th, which will be a better time for coming to a new country. There will be between 100 and 150 in this party. The immigration from the northern states this year will be enormous. The winter Mr. Davies held 35 meetings through Minnesota, each attended by from 200 to 300 farmers, who are most desirous of information regarding Western Canada. The prospect of immigration for Western Canada never looked more encouraging.

ANOTHER TRANS-CONTINENTAL LINE (?) Regarding the rumors that have appeared in the eastern papers that the Canadian Northern (the amalgamated Dauphin and Southern route) was to be extended west along the Saskatchewan valley and across British Columbia to the Pacific coast, and referring to the statement of A. L. Sifton at the late public meeting at Calgary, that "arrangements have been made to build a railway to compete with the C. P. R. from Lake Superior to Edmonton," the Winnipeg Tribune says:

"If Mr. A. L. Sifton is speaking from positive knowledge, this is a most serious announcement. A railway to compete with the C. P. R. would do much to hamper the C. P. R. owned railway, which as a matter of fact will combine with its competitor. Are we to have the C. P. R. contract over again, with its immense land subsidy and its tax-exemption? Is not an experience of that kind enough? The people of Canada cannot too soon awake to this question. If the new transcontinental line is not to be a second edition of the C. P. R. with the latest improvements designed by railway promoters and bonus hunters, they must take heed to the building of that part of the line already under way, and in connection with which governments at Ottawa, Toronto and Winnipeg, have been in hand with Messrs. Mann & Mackenzie."

NOTICE
Notice is hereby given that on the 31st day of May, 1899, at the hour of two o'clock in the afternoon, at the Court House in the City of Edmonton, Alberta, the following lands situated in Township 18, Range 22 and 23, west of the 100th meridian, will be sold at public auction to the highest bidder for cash, by the Receiver General of the Dominion of Canada, in pursuance of an order of the Court of Chancery made on the 11th day of April, 1899, in the matter of the Estate of the late John W. Taylor, deceased, and in pursuance of the provisions of the Act in that behalf made. WHITFIELD LAKE

The long look for snow has come at last and now we are enjoying splendid sleighing.

Mr. Batty, who has been travelling for a Chicago bank firm, is visiting his sister, Mrs. Smith, prior to his departure for the Western States, where she has accepted a responsible position with the firm.

Our correspondents learned from Mr. W. J. Chisholm, inspector of Indian schools and agencies, that the Indians of this agency are making good progress. Only an odd one is found wearing a blanket, almost all of them dressing like whites.

These houses have been greatly improved by the output of the sawmill last year, particularly at Whitfield lake, which is the largest sawmill in the province.

Cattle are in good condition on all the reserves. The grain mill has been rebuilt on a more favorable site and has been greatly improved.

It is in charge of Mr. McKee, as miller, and is giving good satisfaction both as to quantity and quality of flour turned out.

The Indians have got out over 2,000 saw logs for sawing during the winter.

The lumber will be used for houses and other improvements on the reserves. The Indians are well equipped with sleighs of a substantial make and fine finish. It is 90 per cent of these the wood work was done by themselves the iron work being done by the instructors at the blacksmith shop.

There is one heard and three day schools in this agency, all of which are doing good work.

ANGUS RIDGE

The following immigrants arrived from Huron Co., Ontario, at Wetaskiwin on Thursday and will settle at Battle river: Mr. and Mrs. Tom Ward, Mr. and Mrs. Ed. Ward, Mr. and Mrs. Wm. Ward, Mr. and Mrs. Robert Joyce is also among the recent arrivals.

Mr. and Mrs. Vaughan and Miss Vaughan have arrived in Wetaskiwin from Chicago. Jack Hayes, who is looking over the location of immigrants on behalf of the government, is actively at work again this year.

Mr. Cameron has been visiting his family for a few weeks. We regret that Rev. Purdy, Presbyterian missionary student, leaves us in a few weeks. Mr. Purdy's services have been highly pleasing to the people of Battle river. We wish him much success in college. Mr. Purdy has been asked to go as a missionary to the mines in British Columbia but has declined.

Mrs. Tussell is spending a few weeks in the burg with Mrs. Hamilton.

HOCKEY AT BANFF

Banff, Alta., March 25: Knowing that the citizens of your town are fond of sport and therefore take an interest in hockey, I send you an account of the game played here for the championship of the Territories.

During the matches played between the Calgary and Medicine Hat teams on Thursday last for the championship of the Territories, a challenge was sent to the winning team to play the Banff team at Banff and offering to pay all expenses of the visiting team; the Calgary team being the winners, accepted, thinking they could easily beat a little place like Banff, but before half time was called, they thought they had run into an Edmonton chinook. Considerable of the cash receipts of the different places of business in Calgary was left behind at Banff when the Calgary team took the train going east. The teams were as follows:

STORY PLAIN

On the 17th inst., St. Patrick's day, the home of Mr. and Mrs. Butcher was the scene of the largest gathering yet assembled in the Story Plain district. There were between seventy and eighty guests present who enjoyed themselves immensely. It was not until late the next day that tranquility reigned again in the home of the Story Plain citizens. Mr. and Mrs. Butcher entertained their guests in their usual jovial manner and in a way that will not likely be forgotten for some little time.

A WORD ABOUT REPAIRS.

There is no article that is so closely associated with us as a Watch. It regulates all our business and is either the greatest of treasures or the most hated of nuisances. A watch must either be repaired properly or ruined, and hunched workmen and apprentices. Having been at the Jewellery and Watch Repairing bench for the past 10 years in the most reliable shops in some of the largest cities of EUROPE, UNITED STATES AND CANADA, from which I have received diplomas and excellent references for my skilled mechanical work, which proves that I am sufficiently master of my trade, I make this class of work a distinct feature and give it my most scrupulous attention. All work entrusted to my care will be repaired expeditiously and in a superior manner, accompanied with a guarantee for twelve months. I shall do my utmost to gain the confidence of all who favor me with their patronage. One trial will prove.

Hoping to have a call from you, I remain, Yours respectfully,
